THE COMMISSIONER OF PATENTS

DESIGN DIVISION

WASHINGTON DC

Att.:Mr.Gray,Chief Examiner

Dear Mr.Gray :

On your telephoned consent,that it is in order to supply you with information which might be helpful for your work,I submit the following :

Photographic Method of Evidence of Design Piracy:

The one glossy photo shows the two products.The second juxtaposition is identical with the first one except that the diameter in both cases is now the same at the pinched waist line,by cutting out a vertical slice.Thereby it becomes clear that the product with the wider diameter ~~xxxx~~ has the same configuration as the other one and wants to have the benefit of its public acceptance.

New products of CHEMEX CORPORATION: We are manufacturing two new drinking glasses in addition to the cocktail glass: I enclose a photo which shows the cocktail glass(60°) 8 oz; the Hiball glass(30°) 11 oz; and the beer glass(15°) 16 oz. They are sold under our new Trademark Registration of Aug.6, 1957 for # 649,904(see above right).

Respectfully,

Dr.Peter Schlumbohm
